Used and Ex-rental Equipment List

Cosmetic Quality Grading

We grade our used and ex-rental stock as a guide only. It is important to consider the description along with the cosmetic grade. For example an amplifier might be graded A+ but be faulty, this indicates it is cosmetically in mint condition but it doesn't work. Conversely a speaker might be graded D, but work perfectly and following a lick of paint could give 5 years of reliable service.

- A. Mint Condition, often referred to as Ex-demo but might have done a couple of shows with us but unlikely to exhibit any signs of use.
- B. Good used condition but shows signs of light use.
- C. Average condition with age and purpose related wear and tear.
- D. Below average condition.
